PUBLIC WORKS (1942) Department.

MS. SERIES.

G.O. No. 2207

Dated 30th June 1942.

[Despatch Abstract.]

ESTABLISHMENT - Temporary - South Kanara - A.R.P. - Additional staff - Sanctioned.

SPECIAL.

C.F. 32 (a).

Public Works Department

Received 20 JUN 1942 — Registered

From (Name) Sri Rao Bahadur L.Venkata-krishnaAyyar,B.A.,B.E.

Designation Chief Engineer, P.W.D. (General)

Station Chepauk, Madras.

To The Secretary to Government, Public Works Department.

Enclosures: Copy of Exec. Engr.'s letter 1090 SE dated 12-6-42.

No. 4014 Ad/42-1 dated 19th June 1942.

Sir,

Sub:- Establishment - Temporary - A.R.P. - South Kanara - Additional staff - Recommended.

Ref:- G.Os. 1198 dated 6-5-42 and 1454 dated 20-5-42.

The Executive Engineer, West Coast Division reports (copy of letter enclosed) that for the speedy execution of A.R.P. Works in South Kanara, an additional supervisor is immediately required. I am satisfied that the list of works to be taken up for execution in South Kanara still remains sufficiently heavy to warrant the employment of one more supervisor. Hence I recommend sanction to the entertainment of an additional supervisor with a peon for a period of 3 months or till completion of the A.R.P. works from date of appointment.

2. In view of the immediate necessity for the additional hand, I am posting a supervisor and authorising the

Superintending

Superintending Engineer to employ the peon in anticipation of Government sanction. I request that my action may be approved

Copy of letter No.1090 SE, dated 12-6-42 from the Executive Engineer, West Coast Division. Calicut to the Superintending Engineer, Coimbatore Circle.

Read:-

Copy of letter No.14 A.R.P. dated 8-6-42 from Asst. Engineer, P.W.D. Mangalore to the Executive Engineer, West Coast Division, Calicut

Divl. No.61-ARP of 5-6-42 - Office Establishment.

In continuation of this office No.40-C/28-5-42, I have to report that estimates are required for the following.

	No. of Estimates to be prepared	No. to be executed.
1. Repairs and improvements to Warden posts with A.R.P. protection.	42	42
2. Repairs and improvements to First Aid Posts.	4	4
3. Fixing of 4 siren posts.	4	4
4. Construction of a smoke room	1	1
5. Construction of motor garages	2	2
6. Improvements to A.R.P. Control Room Mangalore.	1	1
7. Protection of A.R.P. for Govt. Buildings	20	20
8. Construction of Reservoirs in Mangalore Municipality in different places reported plans and site maps are required.	32	32
9. Minor estimates	14	14
	120	120

Wardens Posts are just being inspected by the Chief Wardens and Special A.R.P. Officer with me and they are now being fixed one after the other. All the warden post require the usual protective blast proof walls against splinters. About 10 inspected so far.

First Aid Posts. 3 have been inspected by me so far and the 4th will be inspected shortly. All require improvements.

Siren post. One post has been constructed and the other have to be fixed up still.

Smoke Room. Estimate sanctioned. Stones are collected at quarry. Cement is not available and orders solicited for ordinary mortar and a workslip has to be prepared for.

Garage for 7 sheds for lorries. There are already 3 sheds to be repaired and made for and 4 to be constructed and hence estimates have to be prepared.

Improvements to Control Room etc. The Section Officer, Mangalore in disposing of the reference and this disposal is still awaited I think nothing has been done by him so far. I could not do anything as survey books are with him and have not received any article of survey for the regular sub division so far. So he is again reminded.

P.T.O.

Protection of A.R.P. for Govt.Buildings. Estimates are to be prepared as requisitions are received. I have submitted so far 3 estimates

Construction of Reservoirs. 32 Reservoirs have to be constructed spread all over the town, at least small hand sketches and site surveys are required before the works are started. In addition to the above other estimates have to be prepared for residential or non-residential buffidings. The volume of works in preparationof estimates may kindly be considered and at the same time, the works have to be put into execution.

In Vizag, One Supervisor was able to submit about 5 to 6 estimates per month and hence to speed up, two supervisors were sanctioned and have been working for the last one year, and for xxx execution there were very good contractor like Messrs. Gannon Dunkerley and Co. and Andhra Engineering Co. Here there are no contractors or firms who can execute works quickly. All big major works in this town are generally given to Contractors of Calicut and so this difficulty of execution of petty works in a hundred places is a more difficult task and it is still worse to get them to do it much quicker when required materials are not available and labour is very dear.

As works have to be estimated for one after the other, I am of opinion that two Supervisors will have tight work for six months continuously with great strain and pressure. The monsoons has already set in and a portion of this period will have to be set off as non-working period owing to rainy season.

Having placed before you a list of works for which estimates have to be prepared and executed, I do not think that the staff of two Supervisors asked for is not unreasonable. Further street shelters will have to be provided for - slit trenches will have to be estimated for in public places such as market, school, hostels and Cinemas. These works can be regularly programmed for and attended to if sufficient staff is at our disposal. There are only six petty contractors in Mangalore and if things require emergency works have to be given to big firms like Messrs. Gannon Dunkerley and Co. or on nomination at tender rates in the condition stipulating completion of work in a limited time.

Copy forwarded to the Superintending Engineer, Coimbatore for favour of obtaining sanction for an additional Supervisor for the A.R.P. Sub Division, Mangalore. It will be evident from the details furnished by the Sub Divl. Officer that one Supervisor will not suffice. I request that the additional Supervisor may be posted in anticipation of sanction of Government

Ref. No.51. A.R.P.-42/
A.R.P. Special.

Special A.R.P. Office,
MANGALORE.
Dated 22nd June, 1942.

From

M. Karamatullah, Esq., I.C.S.,
A.R.P. Controller & District Magistrate
Of South Kanara, M a n g a l o r e

To

The Secretary to Government,
Public Works Department, Madras.

Through

The Superintending Engineer,
Coimbatore Circle, and
Thes Chief Engineer, Public Works Department General.

Sir,

Establishment - temporary - South Kanara - A.R.P. - Special Sub-Division - additional staff.

P 2000. ---

The Executive Engineer, West Coast Division, has in his letter No.1090, dated 12-6-1942, to the Superintending Engineer, Coimbatore Circle, furnished a list of A.R.P. works for which estimates have to be prepared and executed in the Mangalore area. He states that one supervisor appointed will not suffice for the execution of the works and that the staff of two supervisors asked for by him is not unreasonable. He has strongly recommended that an additional supervisor may be posted immediately. Considering the volume of work to be attended to and the promptness required in the execution of each item, the appointment of an additional supervisor is highly desirable. I, therefore, request that necessary arrangements may be made to post one extra supervisor for duty in the Mangalore area to work under the A.R.P. Assistant Engineer, for a period of two months or till the A.R.P. works are completed, whichever is earlier.

Dy. Controller,
for A.R.P. Controller.
